

**Instructor IA Evaluation for Jay Seungjoon Paek
Department of Electrical and Computer Engineering**

ECE 45 - Circuits and Systems (Zeger, Kenneth A.)
Spring 2024

Evaluation Responses

1. The Instructional Assistant effectively encouraged student questions and participation.

Extremely effective

2. The Instructional Assistant effectively led the discussion and ensured that it was kept on track.

Extremely effective

3. The Instructional Assistant held students' interest.

Extremely effective

4. The Instructional Assistant was well organized and prepared for class.

Very effective

5. In terms of explaining content, the Instructional Assistant clearly answered students' questions.

Extremely effective

6. The Instructional Assistant clearly presented the material in a well-organized manner.

Very effective

7. The Instructional Assistant was interested in and courteous to students.

Extremely effective

8. The Instructional Assistant respected students' rights.

Extremely effective

9. The Instructional Assistant made him/herself available to students outside of class and through regular office hours.

Extremely effective

10. The Instructional Assistant graded consistently and fairly.

11. The Instructional Assistant fairly and consistently provided feedback to students.

Extremely effective

12. The Instructional Assistant contributed to course development.

Extremely effective

13. The Instructional Assistant participated in regular TA/Tutor meetings.

Extremely effective

14. The Instructional Assistant supported course objectives.

Extremely effective

15. Sources used to complete this evaluation

Regular meetings/feedback sessions

Classroom observation

Informal evaluations by students

16. Each quarter, Electrical and Computer Engineering recognizes students who excel in their teaching services and provide a valuable contribution to teaching in Electrical and Computer Engineering by conferring the "Teaching Excellence Awards". Would you recommend this Instructional Assistant for the Electrical and Computer Engineering Teaching Excellence Award? If yes, please explain why they deserve the award.

[No Responses]

17. Do you have any other comments to add to your evaluation?

Please keep your comments constructive and professional, abiding by the Principles of Community

- Jay did a great job this quarter. The only possible improvement I could suggest would be to double check some presentations ahead of time to make sure the mathematical derivations work out when showing students live. This is a pretty minor thing, but with experience it gets easier. Jay had some great ideas to improve the class and was very enthusiastic.
