1. Please describe this person's greatest strengths as a Instructional Assistant.

- He gives advice on how to ace some of the parts in the final project. He's really helpful and he is straightforward when I ask a question.
- He has been helpful in giving us little tips and tricks to tweak our labs and improve our chances of success.
- He is very helpful and wants to help students. Instead of sitting around like most IA's do, he actually check's in. He spent a lot of time trying to help my group with our robot that was having many issues.
- Knows things, helps give feedback on ideas
